# When it comes to children

- Anonymous
- Risk Taking
- Curiosity
- Peer pressure
- Self Esteem
- For Fun
- Illusion of Safety
- Mimicking modern idols
  
- **Potential to make money**

# Grooming / Sexting

- From Open and Public
- To Private rooms specifically set up for grooming / normalising abusive behaviour

# Our Challenges

# 'Uh oh! I'm in trouble'

- Where is the report button?
- No Monitoring - like an open playground full of 'drunk children' and predators
- No Age verification
- Parents unawareness
- OR Parents are aware and resisting potential risks

# When they do report

---

Since most video chats are not saved on their servers  
Unbothered to keep a log

There is only so much one can do with only a picture; less  
evidence
